Where Have All The Mountains Gone?

Adapted from Where Have All the Flowers Gone Originally recorded by the Kingston Trio

*Where have all the mountains gone,
long time passing,
where have all the meadows gone,
a long time ago
Where has all the wildlife gone?
gone to stripminning everyone,
When will they ever learn, When will they ever learn*

*Where has all the pure air gone?
Long time passing
Where has all the pure water gone, a long time ago
Where have all of the big fish gone?
Hunted into extinction everyone
When will they ever learn, when will they ever learn*

*Where have all the forests gone?
Long time passing,
Where have all the Redwoods gone? a long time ago
Where has all the wilderness gone?
Gone to extinction everyone
When will they every learn, when will they ever learn*

*Where have all the poisons gone?
Long time passing
Where has all the radiation gone
A long long time ago
Where has all the mercury gone,
Gone into the bodies of everyone,
when will they ever learn, when will they ever learn*

*Where have all the people gone?
Long time passing
Where are those who truly care?
A long long time ago
Where have all the people gone?
Gone to vote for Harry Braun
Thank God they finally learned, Thank God they finally learned*
